# Overview

## I. Phone Packaging Box

The phone packaging box should contain the following items and accessories:

Phone, Battery, Power Adapter, Quick Start Guide and USB-Cable.

## II. Installing SIM Card, Memory Card and Battery

Make sure to always turn off the power before installing or replacing the SIM card and battery. The back cover needs to be removed before putting in the SIM card, battery, or memory card.

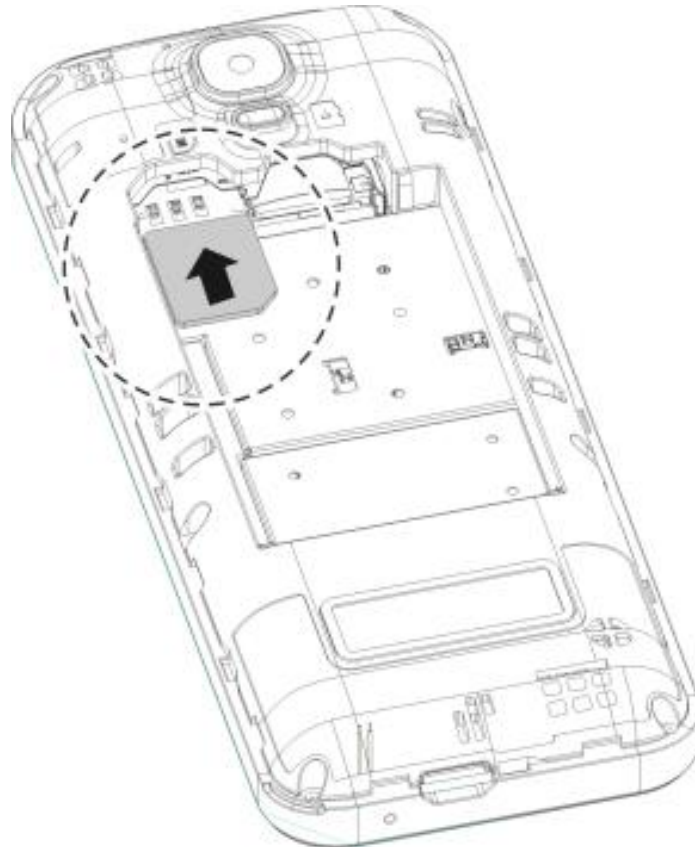

### **Removing Back Cover**

1. Make sure your device is turned off.
2. Hold the device carefully with the front

panel facing down.

3. Pull lower half of back cover with your thumb or fingers. Remove it from the opening.

## **SIM Card**

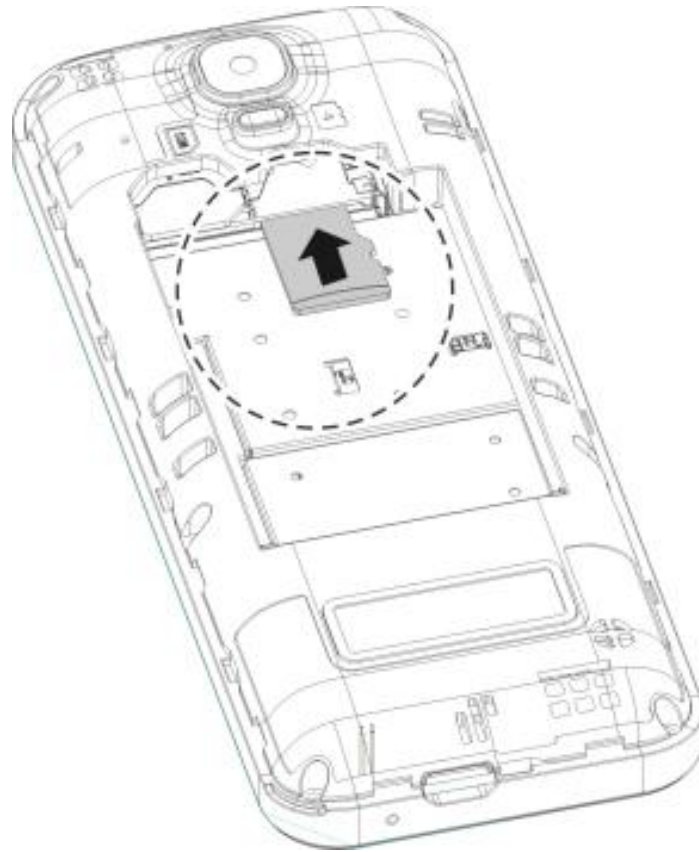

The SIM Card contains your phone number, service details and the phone-book/message memory.

### **Installing SIM Card**

1. Make sure the phone is turned off.
2. Insert the SIM Card into the SIM Card slot gold contacts facing down and cut-off corner facing out.

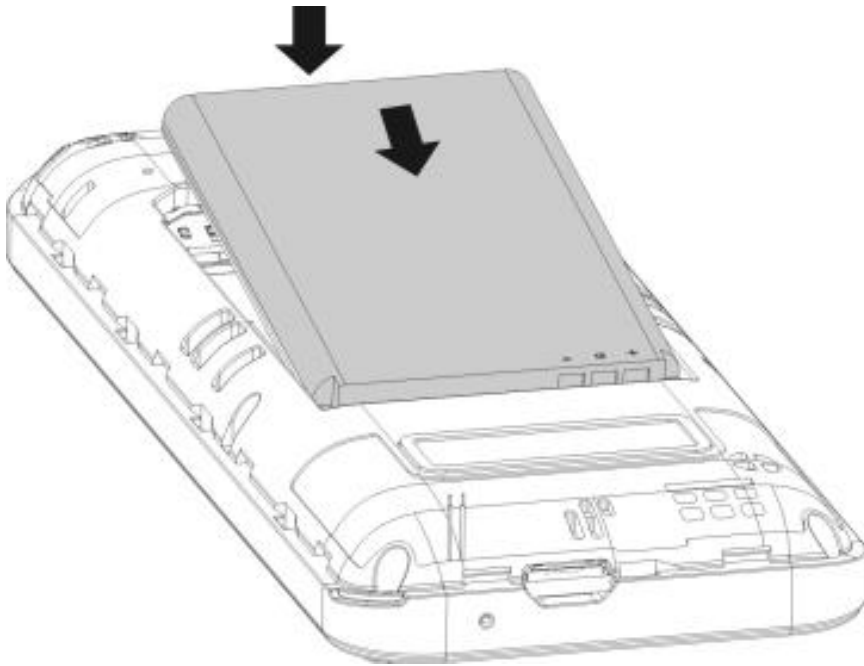

## Installing Memory Card

Insert the micro SD-card into the slot with its gold contacts facing down.

Camera and photo gallery application can only be initiated after the installation of the TF card.

## Charging the Battery

When you first get your new phone you'll need to charge the battery.

Connect the adapter to the charger jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charger jack.

Connect the charger to a standard AC wall outlet.

Disconnect the charger when the battery is fully charged.
